

Premier Hosting, Inc.

Dropshipped Direct is the most user-friendly dropship source directory owned by Premier Hosting, Inc.

Dropshipped Direct is starting to draw quite bit of attention in the drop shipping community. Dropshipped Direct is constantly researching dropshippers and updating their products. Their products don't go online until they are put through the Dropshipped Direct stamp of Approval.

First, understand what it is.

You can see a complete list of the products at retail price

With a paid membership you will see the whole prices

They specialize mainly in dropshippers

You buy directly from drop shippers

They have a yearly fee of only \$29.95 for their drop ship information

You can also get their dropshippers feeds to import into you store for \$9.95 /mo

All of their dropshippers are pre-qualified

You can search for products directly on their website

The product information returned includes pricing and sometimes availability

Tired of Looking for Real Dropshippers?

I, like you, am tired of spending hour after hour looking and researching Dropshippers. There are many good Dropshippers out there in the world, but the problem is there are also many more that are not really True Dropshippers. They trick you and I into thinking that they really are legitimate dropshippers. You can spend days searching the Net using the most popular search engines, but that won't help you much. You will find in your searches that these are the so-called Dropshippers who you want to stay clear of. Real honest True Dropshippers do not use Pay Per Clicks to get visitors. They don't have to.

Once you find a so-called Dropshipper in a Search Engine, you need to check them out. First, look at their WHOIS information and see if they are hiding their identity. Secondly, place their complete address in Google, the grand daddy of all search engines, and see if other websites are using that same address. Also, change the address number to within a few digits and see what you can find. A next-door neighbor, perhaps, that you can call and ask if there is a warehouse next to them. More than often I am told it either a mailbox drop or an apartment complex – NO WAREHOUSE.

Dropshipped Direct has done all the research for you, let me explain:

First of all you get a Full Bio of each Dropshipper. From the Dropshipper themselves

You get Our Complete Non-Bias Dropshipper Review, telling you of the good and bad points

You get pictures of their warehouse to prove they are not middlemen trying to deceive you

You get so see All Their Products w/ Pictures, Descriptions, MSRP & Your Wholesale Prices

You will get Full Contact Information, who to contact and where the contact information is located

More than 150,000 products

YOU buy Directly from the Dropshippers NOT from a Middleman
