

Premier Hosting, Inc.

## **Website Video Spokesperson available through TalkingDirect.com recently released by Premier Hosting, Inc.**

Premier Hosting updated its services to provide your website with ATTENTION getting spokesperson. This is no ordinary video either! The videos are unique by offering one of our Spokespersons with a transparent background, hovering over your web site. Be your own director and maintain visitors to your website through a unique video you helped create. Simply add your script and let the actors take care of the rest for you. You can choose from a variety of spokespersons that range in gender, age, appearance and outfit selections.

The length of the video is determined by the amount of script you submit for the actor/spokesperson. Videos will range in 30 seconds, 60 seconds or more than 60 seconds. You can also choose where you would like the video to be placed over your website, and how much of the actor you would like to have displayed. Choose from a full body, ? body or a ? body video shot.

Benefits to hiring a Professional Spokesperson to your Website:

1. The Spokesperson will maintain the visitor's interest by being a skilled communicator who knows how to connect with your potential customers.
2. A spokesperson will help attract your targeted audience and eventually lead to more sales. The spokesperson will communicate your message on a face-to-face basis, which helps gain trust from your visitors.
3. The Spokesperson will deliver your message more enthusiastically than just having plain text. Let's face it. Most people on the Internet would rather watch a video than read a bunch of text. The Spokesperson will lighten your customer's load, while entertaining and informing them at the same time.
4. These are trained Spokespersons. They will be very accurate in delivering your message effectively with the exact script you have provided. They are professionally trained in timing delivery, enunciation and presentation along with multi-media.
5. And Much, Much More...
