

EffectiveSoft Ltd.

EffectiveSoft Company Released Intellexer™ Summarizer 3.0

EffectiveSoft Ltd., an offshore software development company, released a new version of Intellexer Summarizer.

Intellexer Summarizer is a desktop application which analyzes text, defines its key concepts and extracts a summary of the entire text. Intellexer Summarizer 3.0 is an excellent assistant in document management and data search.

The new version preserves all features of Intellexer Summarizer 2.6 such as concept tree, history, summary types, and high processing quality. But more new features and improvements have been implemented:

- Summary quality is improved due to the linguistic core enhancements.
- The functionality of singling out important concepts and rearranging summary is improved.
- Support of new file formats:
 - a) Microsoft Word 2007 (*.docx);
 - b) Multipurpose Internet Mail Extension HTML (*.mht);
 - c) Portable Document Format (only for Intellexer Summarizer Pro).
- Improved processing of the following file formats: Microsoft Power Point (*.ppt) and plain text (*.txt)
- More summary types are added:
 - a) Intellexer Summarizer: Law;
 - b) Intellexer Summarizer Pro: Health, Information Technology, Disaster, Ecology, Sports, Innovation.
- New stylish and user-friendly GUI
- A new feel and look:
 - a) the Summary, Concepts, History, and View tabs are introduced within the Ribbon area;
 - b) the Quick Launch bar is introduced which is customizable;
 - c) the Intellexer Summarizer menu is minimized to the drop-down menu.
- View:
 - a) the management of summary windows is enhanced;
 - b) different styles are offered to the user to personalize the appearance of Intellexer Summarizer.

Intellexer Summarizer can be applied to quicken routine work on your computer such as reading long emails and attachments, analyzing news, getting a summary of any electronic book or document.

Try out Intellexer Summarizer 3.0 at <http://summarizer.intellexer.com/> and enjoy your new possibilities.
